Subject: Microsoft Settlement

To whom it may concern:

I believe that this matter has been litigated long enough. The Government, Microsoft, and a number of states have determined that the Settlement is acceptable and I don't think it is in the public interest for the attorneys general of a few states to drag this out any longer. The public will ultimately pay for this litigation-past, present, and future-and we have paid enough.

Stop it now and let everybody get on with their business.
